⌖ C. Ángel Porto Carrero #80 Infonavit Justo Mendoza, Morelia, 58146

SKILLS

- Leadership
- Communication abilities
- Project management
- Programming (PHP, Javascript, JQuery)
- Frameworks web (CodeIgniter)
- Self-motivated

OVERVIEW

As a highly motivated and result oriented engineer within the Software Development and Information Security sector, I have experience in the creation of web systems oriented to Credit and Real Estate Management, also as a service manager I have been able to implement business email services and work with various operating systems such as Parrot Security, Kali (Pentesting), Centos, Debian, Ubuntu, etc. I have a special interest in software development, in which I have been involved for the last two years and have developed important technological and real estate platforms. I am looking for a position in a company dedicated to the technological field, where I can be a strategic added value and further develop my current skills. In my free time I am an application developer and offer design and technical support services.
